

Manz AG: TISAX® Assessment

The ENX Association supports with TISAX® (Trusted Information Security Assessment Exchange) on behalf of VDA the common acceptance of Information Security Assessments in the automotive industry.

In an increasingly digitalized world, in which the industry is more and more dependent on information technologies, the protection of sensitive information is of crucial importance. Manz AG has taken extensive measures to protect sensitive and/or confidential information. Therefore, we follow the question catalogue of information security of the German Association of the Automotive Industry (VDA ISA).

The TISAX® Assessments are conducted by accredited audit providers that demonstrate their qualification at regular intervals. The assessment at Manz AG was conducted by **DEKRA**.

TISAX® and TISAX® results are not intended for the general public. The result is exclusively retrievable over the ENX Portal: <https://portal.enx.com/en-US/TISAX/tisaxassessmentresults/>

Scope ID: SVMV8H

Assessment ID: AC9X3V
